

# MYCOTAXON

AN INTERNATIONAL JOURNAL FOR RESEARCH ON  
TAXONOMY & NOMENCLATURE OF FUNGI, INCLUDING LICHENS

Volume LXX

January-March 1999

## CONTENTS

<i>Hohenbuehelia ilerdensis</i> , a new graminicolous species from semisteppe areas of Lleida (western Catalonia, Spain)	<b>R. Courtecuisse, J. Villa, and X. Llimona</b>	1
Three species of <i>Microthyrium</i> from <i>Nolina</i>	<b>Annette W. Ramaley</b>	7
New smut fungi from South Africa	<b>Kálmán Vánky</b>	17
The new classificatory system for smut fungi, and two new genera	<b>Kálmán Vánky</b>	35
<i>Septoria birgitae</i> Bedlan sp. n., a new pathogen causing leaf spots on <i>Lactuca sativa</i>	<b>G. Bedlan</b>	51
<i>Titaea formosa</i> anam. sp. nov., a new fungicolous hyphomycete from Spain	<b>Fernando Pelaez, Rafael F. Castañeda Ruiz, and Francisco Arenal</b>	55
A new species of <i>Pleurothecioipsis</i> from a rainforest in Venezuela	<b>Rafael Castañeda Ruiz and Teresa Iturriaga</b>	63
<i>Fomitopsis cajanderi</i> in Europe - evidence from mating experiments	<b>Nils Höglberg and Jan-Olof Hermansson</b>	69
<i>Penicillium donkii</i> in Arctic pond	<b>Aurora Montemartini Corte and Massimo Liotta</b>	73
Additions to the known Xylariaceae (Hymenomycetes, Xylariales) of Sonora, Mexico		
<b>Felipe San Martín, Pablo Lavín, Martín Esqueda-Valle, and Evangelina Pérez-Silva</b>		77
<i>Xylaria perezsilvae</i> sp. nov. from soil in Mixcum, Chiapas, Mexico	<b>Felipe San Martín and Pablo Lavín</b>	83
<i>Mycena californiensis</i> resurrected	<b>Brian A. Perry and Dennis E. Desjardin</b>	87
Addendum to annotated check-list with host data and decay characteristics for Colorado wood rotting Basidiomycota	<b>J. Page Lindsey</b>	99
Further new species and new reports in the lichen family Parmeliaceae (Ascomycotina) from South Africa	<b>John A. Elix</b>	103
Aphyllophorales (Basidiomycotina) of arid habitats of the Canary Islands.Preliminary data	<b>E. Beltrán Tejera and J. L. Rodriguez-Armas</b>	111
Phylogenetic studies in Gomphaceae sensu lato (Fungi: Basidiomycetes)	<b>Margarita Villegas, Efraín De Luna, Joaquín Cifuentes, and Arturo Estrada Torres</b>	127
NATS truffle and truffle-like fungi 8: <i>Rhizopogon mengei</i> sp. nov. (Boletaceae, Basidiomycota)	<b>Michael F. Allen, James M. Trappe, and Thomas R. Horton</b>	149
Two new species of <i>Didymium</i> (Physarales, Myxomycetes) from Japan	<b>Jun Matsumoto and Hironori Deguchi</b>	153
A new species of <i>Canoparmelia</i> from North America (lichenized Ascomycotina, Parmeliaceae)	<b>Karin Heiman and John A. Elix</b>	163
Three new species of <i>Russula</i>	<b>Raymond M. Fatto</b>	167
A new species of <i>Ascotricha</i> with uniquely mounded ascospores	<b>Shun-ichi Udagawa and Shigeru Uchiyama</b>	177

[Contents continued inside front cover]

ISSN 0093-4666

MYCNNAE 70: 1-516 (1999)

For subscription details, availability in microform, and  
availability of articles as photocopies or tear sheets, see back cover.

[Contents continued from front cover]

<i>Cryptumbellata</i> , a new hyphomycete genus from soil	<b>Shun-ichi Udagawa and Shigeru Uchiyama</b>	185
Cultural characteristics and taxonomy of some polypores (Aphylophorales) from Santa Catarina Island, SC, Brazil	<b>Maria Alice Neves and Clarice Loguerico-Leite</b>	193
Contribution à un inventaire mycologique de Madagascar. 2. Nouveaux taxa dans le genre <i>Cantharellus</i>	<b>G. Eyssartier and B. Buyck</b>	203
The nomenclatural propriety of <i>Rhizophlyctis rosea</i>	<b>Will H. Blackwell and Martha J. Powell</b>	213
<i>Bondarcevomyces</i> , a new genus of polypores (Hymenomycetes, Basidiomycota)	<b>Erast Parmasto and Iimi Parmasto</b>	219
Addition to the lichen flora of Thailand	<b>K. Vongshewarat, P. M. McCarthy, P. Mongkolsuk, and K. Boonpragob</b>	227
Molecular taxonomy of <i>Ceriporia Septoria hodgensis</i> sp. nov.: a potential biocontrol agent for <i>Myrica faya</i> in Hawaii	<b>Seon-Young Kim and Hack Sung Junng</b>	237
<i>Microporellus obovatus</i> in India and its cultural characteristics	<b>Donald E. Gardner</b>	247
<i>Alternaria</i> themes and variations (226-235). Classification of citrus pathogens	<b>A. Mitra</b>	255
<i>Alternaria</i> themes and variations (236-243). Host-specific toxin producers	<b>Emory G. Simmons</b>	263
Corticoid Aphylophorales (Basidiomycota) from the Patagonian Andes forests of Argentina 4. <i>Nothocorticium patagonicum</i> gen. et sp. nov.	<b>Alina Greslebin and Mario Rajchemberg</b>	371
Cultural studies of <i>Agrocybe cylindrica</i> , <i>Gymnopilus pampeanus</i> and <i>Oudemansiella anarii</i> (Agaricales) isolated from urban trees	<b>Silvana M. Sede and Silvia E. López</b>	377
Studies in <i>Chaetosphaeria</i> sensu lato I. The genera <i>Chaetosphaerella</i> and <i>Tengiomyces</i> gen. nov. of the Helmithosphaeriaceae	<b>Martina Réblová</b>	387
Studies in <i>Chaetosphaeria</i> sensu lato II. <i>Coniobrevicolla</i> gen. & sp. nov.	<b>Martina Réblová</b>	421
Two new species of <i>Calicium</i> from Europe	<b>L. Tibell</b>	431
A blue ascospore colour variant of <i>Emericella nidulans</i>	<b>Ursula Peintner and Johannes Rainer</b>	445
Lepiotaceae of Florida. II. Lepiota s. str., section Fuscovinaceae	<b>Brian P. Akers and Walter J. Sundberg</b>	453
Incompatibility between <i>Laetiporus cincinnatus</i> and <i>L. sulphureus</i> in culture	<b>Mark T. Banik and Harold H. Bursdall, Jr.</b>	461
<i>Chaenothecopsis tristis</i> , a rare resinicolous species of the Mycocaliciaceae	<b>Alexander N. Titov and Leif Tibell</b>	471
New records of <i>Phyllachora</i> on Poaceae from Argentina	<b>A. C. Gabel, M. L. Gabel, and D. Cabral</b>	477
Fungi on <i>Juncus roemerianus</i> . 13. <i>Hypopollenema juncatile</i> sp. nov.	<b>Jan Kohlmeyer and Brigitte Volkmann-Kohlmeyer</b>	489
Online resources for fungal taxonomy and nomenclature: Internet monography	<b>Kathie T. Hodge</b>	497
Book Reviews	<b>Eric H. C. McKenzie</b>	499

### Author Index, Volume Seventy

**Akers, Brian P., and Walter J. Sundberg.** Lepiotaceae of Florida, II. *Lepiota* s. str., section *Fuscovinaceae*, 70: 453-460

**Allen, Michael F., James M. Trappe, and Thomas R. Horton.** NATS truffle and truffle-like fungi 8: *Rhizopogon mengei* sp. nov. (Boletaceae, Basidiomycota), 70: 149-152

**Arenal, Francisco,** see Pelaez & al.

**Banik, Mark T., and Harold H. Bursdall, Jr.** Incompatibility between *Laetiporus cincinnatus* and *L. sulphureus* in culture, 70: 461-469

**Bedlan, G.** *Septoria birgitae* Bedlan sp. n., a new pathogen causing leaf spots on *Lactuca sativa*, 70: 51-53

**Beltrán Tejera, E., and J. L. Rodríguez-Armas.** Aphyllophorales (Basidiomycotina) of arid habitats of the Canary Islands. Preliminary data, 70: 111-125

**Blackwell, Will H., and Martha J. Powell.** The nomenclatural propriety of *Rhizophlyctis rosea*, 70: 213-217

**Boonpragob, K.** see Vongshewarat & al.

**Bursdall, Harold H., Jr.** see Banik & Bursdall

**Buyck, B.** see Eyssartier & Buyck

**Cabral, D.** see Gabel & al.

**Castañeda Ruiz, Rafael F.** see Pelaez & al.

**Castañeda Ruiz, Rafael, and Teresa Iturriaga.** A new species of *Pleurothecioopsis* from a rainforest in Venezuela, 70: 63-67

**Cifuentes, Joaquín,** see Villegas & al.

**Courtecuisse, R., J. Villa, and X. Limona.** *Hohenbuehelia ilerdensis*, a new graminicolous species from semisteppe areas of Lleda (western Catalonia, Spain), 70: 1-5

**De Luna, Efraín,** see Villegas & al.

**Deguchi, Hironori,** see Matsumoto & Deguchi

**Desjardin, Denis E.,** see Perry & Desjardin

**Elix, John A.** Further new species and new reports in the lichen family Parmeliaceae (Ascomycotina) from South Africa, 70: 103-110

**Elix, John A.,** see Heiman & Elix

**Esqueda-Valle, Martín,** see San Martín & al.

**Estrada Torres, Arturo,** see Villegas & al.

**Eyssartier, G., and B. Buyck.** Contribution à un inventaire mycologique de Madagascar. 2. Nouveaux taxa dans le genre *Cantharellus*, 70: 203-211

**Fatto, Raymond M.** Three new species of *Russula*, 70: 167-175

**Gabel, A. C., M. L. Gabel, and D. Cabral.** New records of *Phyllachora* on Poaceae from Argentina, 70: 477-488

**Gabel, M. L.,** see Gabel & al.

**Gardner, Donald E.** *Septoria hodgensi* sp. nov.: a potential biocontrol agent for *Myrica faya* in Hawai'i, 70: 247-253

**Greslebin, Alina, and Mario Rajchenberg.** Corticioid Aphyllophorales (Basidiomycota) from the Patagonian Andes forests of Argentina 4. *Nothocorticium patagonicum* gen. et sp.nov., 70: 371-375

**Heiman, Karin, and John A. Elix.** A new species of *Canoparmelia* from North America (lichenized Ascomycotina, Parmeliaceae), 70: 163-166

**Hodge, Kathie T.** Online resources for fungal taxonomy and nomenclature: Internet monography, 70: 497-498

**Hermannsson, Jan-Olof,** see Höglberg & Hermansson

**Höglberg, Nils, and Jan-Olof Hermansson.** *Fomitopsis cajanderi* in Europe - evidence from mating experiments, 70: 69-71

**Horton, Thomas R.,** see Allen & al.

**Iturriaga, Teresa,** see Castañeda Ruiz & Iturriaga

**Junng, Hack Sung,** see Kim & Junng

**Kim, Seon-Young, and Hack Sung Junng.** Molecular taxonomy of *Ceriporia*, **70:** 237-246

**Kohlmeyer, Jan, and Brigitte Volkmann-Kohlmeyer.** Fungi on *Juncus roemerianus*. **13.** *Hyphopolyne juncatile* sp. nov., **70:** 489-495

**Lavin, Pablo,** see **San Martin & al.**

**Lavin, Pablo,** see **San Martin & Lavín**

**Lindsey, J. Page.** Addendum to annotated check-list with host data and decay characteristics for Colorado wood rotting Basidiomycota, **70:** 99-102

**Liotta, Massimo,** see **Montemartini Corte & Liotta**

**Llimona, X.,** see **Courtetuisse & al.**

**Loguercio-Leite, Clarice,** see **Neves & Loguercio-Leite**

**López, Silvia E.,** see **Sede & López**

**Matsumoto, Jun, and Hironori Deguchi.** Two new species of *Didymium* (Physarales, Myxomycetes) from Japan, **70:** 153-161

**McCarthy, P. M.,** see **Vongshewarat & al.**

**McKenzie, Eric, H. C.** Book reviews, **70:** 499-502

**Mitra, A.** *Microporellus obovatus* in India and its cultural characteristics, **70:** 255-262

**Mongkolsuk, P. & al.** see **Vongshewarat**

**Montemartini Corte, Aurora, and Massimo Liotta.** *Penicillium donkii* in Arctic pond, **70:** 73-75

**Neves, Maria Alice, and Clarice Loguercio-Leite.** Cultural characteristics and taxonomy of some polypores (Aphyllophorales) from Santa Catarina Island, SC, Brazil, **70:** 193-202

**Parmasto, Erast, and Ilmi Parmasto.** *Bondarcevomyces*, a new genus of polypores (Hymenomycetes, Basidiomycota), **70:** 219-225

**Parmasto, Ilmi,** see **Parmasto & Parmasto**

**Peintner, Ursula, and Johannes Rainer.** A blue ascospore colour variant of *Emericella nidulans*, **70:** 445-451

**Pelaez, Fernando, Rafael F. Castañeda Ruiz, and Francisco Arenal.** *Titaea formosa* anam., sp. nov., a new fungicolous hyphomycete from Spain, **70:** 55-62

**Pérez-Silva, Evangelina,** see **San Martín & al.**

**Perry, Brian A., and Dennis E. Desjardin.** *Mycena californiensis* resurrected, **70:** 87-97

**Powell, Martha J.,** see **Blackwell & Powell**

**Rainer, Johannes,** see **Peintner & Rainer**

**Rajchenberg, Mario,** see **Greslebin & Rajchenberg**

**Rameley, Annette W.** Three species of *Microthyrium* from *Nolina*, **70:** 7-16

**Réblová, Martina.** Studies in *Chaetosphaeria* sensu lato I. The genera *Chaetosphaerella* and *Tengiomyces* gen. nov. of the Helminthosphaeriaceae, **70:** 377-386

**Réblová, Martina.** Studies in *Chaetosphaeria* sensu lato II. *Coniobrevicolla* gen. & sp. nov., **70:** 421-429

**Rodríguez-Armas, J. L.** see **Beltrán Tejera & Rodríguez-Armas**

**San Martín, Felipe, and Pablo Lavín.** *Xylaria perezsilvae* sp. nov. from soil in Mixcum, Chiapas, Mexico, **70:** 83-85

**San Martín, Felipe, Pablo Lavín, Martín Esqueda-Valle, and Evangelina Pérez-Silva.** Additions to the known Xylariaceae (Hymenoscyphomycetes, Xylariales) of Sonora, Mexico, **70:** 77-82

**Sede, Silvana M., and Silvia E. López.** Cultural studies of *Agrocybe cylindrica*, *Gymnopilus pampeanus* and *Oudemansiella canarii* (Agaricales) isolated from urban trees, **70:** 377-386

**Simmons, Emory G.** *Alternaria* themes and variations (226-235). Classification of citrus pathogens, **70:** 263-323

**Simmons, Emory G.** *Alternaria* themes and variations (236-243). Host-specific toxin producers, **70:** 325-369

**Sundberg, Walter J.,** see **Akers & Sundberg**

**Tibell, L.** Two new species of *Calicium* from Europe, **70:** 431-443

**Tibell, Leif,** see **Titov & Tibell**

**Titov, Alexander N., and Leif Tibell.** *Chaenothecopsis tristis*, a rare resinicolous species of the Mycocaliciaceae, 70: 471-476

**Trappe, James M.**, see Allen & al.

**Uchiyama, Shigeru**, see Udagawa & Uchiyama

**Udagawa, Shun-ichi, and Shigeru Uchiyama.** A new species of *Ascotricha* with uniquely mounded ascospores, 70: 177-184

**Udagawa, Shun-ichi, and Shigeru Uchiyama.** *Cryptumbellata*, a new hyphomycete genus from soil, 70: 185-192

**Vánky, Kálmán.** New smut fungi from South Africa, 70: 17-34

**Vánky, Kálmán.** The new classificatory system for smut fungi, and two new genera, 70: 35-49

**Villa, J.**, see Courtecuisse & al.

**Villegas, Margarita, Efrain De Luna, Joaquín Cifuentes, and Arturo Estrada Torres.** Phylogenetic studies in Gomphaceae sensu lato (Fungi: Basidiomycetes), 70: 127-147

**Volkmann-Kohlmeyer, Brigitte** see Kohlmeyer & Volkmann-Kohlmeyer

**Vongshewarat, K., P. M. McCarthy, P. Mongkolsuk, and K. Boonpragob.** Addition to the lichen flora of Thailand, 70: 227-236

**INDEX TO FUNGOUS AND LICHEN TAXA,  
VOLUME SEVENTY**

This index includes names of genera, infrageneric taxa, species, and infraspecific taxa, as well as new names of suprageneric taxa. All new names are in CAPITALS. The page number on which a new name is proposed is followed by an asterisk (\*).

- Acanthonitschka  
  - Acanthophysium  
  cerussatum 100  
  minor 111, 114-116
- Agaricus  
  californiensis 87-89, 91, 93
- Agrocybe  
  cylindrica 377-380  
  vervacti 5
- Aleurodiscus  
  cerussatum  
    var. minor 115  
  cerussatus 115
